

Assembly Technician

WISER Systems is seeking a talented, motivated candidate for a contract-based Assembly Technician position. The primary responsibility is performing software update and assembly of electronic and mechanical components. Secondary responsibilities could include checking and testing product, troubleshooting the product, documentation, inventory counting, and kitting and shipping product.

Preferred Skills:

- Attention to detail
- Ability to read and follow instructional and assembly documents
- Assembly Experience
- Flexible and able to take on different tasks as required
- Familiarity with computers and software update procedures

Other Skills:

- Ability to work on tasks and projects individually or as part of a team
- Ability to communicate effectively and tactfully with team members
- Self-disciplined and self-motivated
- Demonstrated aptitude for learning new technologies
- Comfortable working in a small-team, entrepreneurial environment
- Applicant must be able to work on site, relocation package not available

About WISER Systems

WISER Systems provides real-time asset tracking in any environment. Located in downtown Raleigh, North Carolina, the company has developed its cutting-edge Redundant Radio Localization and Tracking (RRLT) technology to deliver best-in-class precision, scalability, and reliability in indoor-outdoor positioning. WISER Systems serves customers with autonomous locating needs in challenging or complex environments across industries such as Aerospace, Retail, Oil and Gas, Automotive, Manufacturing, Warehousing / Logistics, and Government.

Work Location: In person, 819 W Hargett St, Raleigh, North Carolina 27603
