

Chemical and Biomolecular Engineering Program
CHE 330 Syllabus – Spring 2024

1. Department, Number, and Course Title: CHE 330 Chemical Engineering Lab I

2. Class Time, Days & Location:

Lecture 11:45 AM – 12:35 PM, T Th, 1011 Engineering Building 1

Laboratory 1:30 PM – 5:30 PM, M T W Th F, 1016 Engineering Building 1

3. Instructors:

Dr. Hassan Golpour

Office: 2086-A EB1, Phone: 513-0652, Email: hgolpou@ncsu.edu

Office Hours: Tuesdays & Thursdays 09:45 AM – 11:15 AM

Zoom Link for Office Hours and Presentations: <https://ncsu.zoom.us/my/hassan.golpour>

4. Laboratory Support Professional:

Dr. Kimberly Dickey

Office: 1016 EB1, Phone: 515-7733, Email: kcDickey@ncsu.edu

Office Hours: Mondays, Tuesday and Thursday from 11:45 am - 12:45 pm

Zoom Link: <https://ncsu.zoom.us/my/kimdickey>

5. Teaching Assistants:

Convection & Radiation: Pragyan Jha

Email: pjha2@ncsu.edu

Office Hours: Fridays 5:00 pm - 8:00 pm

Zoom Link:

<https://ncsu.zoom.us/j/8167630069?pwd=QTNVazE1bEdXVStGb1BPWHZBamduQT09>

Meeting ID: 816 763 0069

Passcode: 037711

Fluidized Bed: Negin Orouji

Email: norouji@ncsu.edu

Office Hours: Tuesdays and Wednesdays 10:00 am - 11:30 am

Zoom Link:

<https://ncsu.zoom.us/j/7239879171?pwd=RjZTRlhQK2hRaTRXOUR6LzlwZXAwZD09>

Meeting ID: 723 987 9171

Passcode: 986378

Boiling Regimes: Mahe Jabeen

Email: mjabeen@ncsu.edu

Office Hours: Tuesday 5:00 pm - 8:00 pm

Zoom Link:

<https://ncsu.zoom.us/j/3495123881?pwd=T0pZeVFLNkR6ZnJtMHRFRTdRNXVPdz09>

Meeting ID: 349 512 3881

Passcode: 139583

Heat Exchanger: Sina Sadeghi

Email: ssadegh@ncsu.edu

Office Hours: Mondays 10:00 am – 1:00 pm

Zoom Link:

<https://ncsu.zoom.us/j/7189814758?pwd=RmJXUlpmS25Fb3JsWFRWamp3bklsQT09>

Passcode: 345362

6. Course (Catalog) Description: Laboratory experiments in unit operations of heat transfer and fluid flow. Laboratory safety, technical report writing, statistics, experimental design, error analysis and instrumentation.
7. Prerequisite(s): Prerequisite = CHE 311
8. Textbook(s) and/or Other Required Material: CHE 330 Coursepack (available free on Moodle)
9. Course Learning Objectives:
 - 1) Produce written technical reports as part of an engineering team.
 - 2) Orally present technical information as part of an engineering team.
 - 3) Capably perform hands-on engineering as part of an engineering team.
 - 4) Solve problems using statistics relevant to engineering.
 - 5) Design and analyze an experiment using factorial experimental design principles.
 - 6) Identify causes and preventative measures for process safety incidents.
10. Class/Laboratory Schedule (# sessions/week and session duration): Two 50-minute lectures per week; one 4-hour lab period per week. A total of four experiments are spread over the semester. Each experiment is preceded by an online preview session and followed by a period for data analysis and preparation of report and/or presentation prior to delivery of materials based on technical analysis of the experiment.
11. Contribution of the Course to Meeting the Professional Component: Engineering Topics (4 semester hours) with design content
12. Scheduled Laboratory/Assignment/Exam Dates

Note: Laboratory reports are due on the date two or three weeks after the experiment is performed, e.g. students in the Thursday lab section must turn in laboratory reports on Thursdays.

Date	Location and Time	Event /Assignment Due
Jan 22 - 26 (M, T, W, Th, F)	1016 EB1, 1:30 PM	Pre-lab 1 Laboratory 1
Jan 25 (Thursday)	Moodle, 11:45 AM	Homework 1
Feb 5 - 9 (M, T, W, Th, F)	TurnItIn.com, 1:30 PM Moodle, 1:30 PM on Friday	Laboratory Report 1 Quiz 1 NO PRESENTATION!
Feb 8 (Thursday)	Moodle, 11:45 AM	Homework 2
Feb 15 (Thursday)	Moodle, 11:45 AM	Homework 3
Feb 19 - 23 (M, T, W, Th, F)	1016 EB1, 1:30 PM	Pre-lab 2 Laboratory 2
Feb 22 (Thursday)	1011 EB1, 11:45 AM	Exam 1
Mar 4 - 8 (M, T, W, Th, F)	TurnItIn.com, 1:30 PM Moodle, 1:30 PM on Friday Zoom, <u>2:00 PM</u>	Laboratory Report 2 Quiz 2 Presentation 1
Mar 18 - 22 (M, T, W, Th, F)	1016 EB1, 1:30 PM	Pre-lab 3 Laboratory 3
Mar 21 (Thursday)	Moodle, 11:45 AM	Homework 4
Mar 28 (Thursday)	TurnItIn.com, 11:45 AM	Homework 5 (DOE)
Apr 1 - 5 (M, T, W, Th, F)	TurnItIn.com, 1:30 PM Moodle, 1:30 PM on Friday Zoom, 1:30 PM	Laboratory Report 3 Quiz 3 Presentation 2 on Lab 3
Apr 4 (Thursday)	Moodle, 11:45 AM	Homework 6
Apr 8 - 12 (M, T, W, Th, F)	1016 EB1, 1:30 PM	Pre-lab 4 Laboratory 4
Apr 11 (Thursday)	1011 EB1, 11:45 AM	Exam 2
Apr 15 - 19	Moodle, 1:30 PM on Friday Moodle, 1:30 PM on Friday	NO REPORT! Quiz 4 Poster submission (no presentation)
Apr 19 (Friday)	TurnItIn.com, 5:00 PM	Optional: Laboratory Report 1 Revision

13. Grading

40% 3 Lab Reports (8% each) & 2 Presentations (8% each)
 8% 1 Poster
 4% 4 Pre-labs (1% each)
 6% 4 Experiment Quizzes (1.5% each)
 12% 6 Homework (2% each)
 30% 2 Exams (15% each)

An individual's score (IS) on a report is determined based on peer evaluations and the average team score (TS) using the following formula:

$$IS_n = TS(0.50 + 0.50 \frac{(\sum_1^i \frac{IPE_{n,i}}{APE_i^*} - \frac{IPE_{n,n}}{APE_n^*})}{n-1}) \quad (1)$$

where, IS_n = individual score of the n^{th} member, $IPE_{n,i}$ = average peer evaluation score for the n^{th} member by the i^{th} member, $IPE_{n,n}$ = average peer evaluation score for the n^{th} member by themselves, APE_i^* = average peer evaluation score by the i^{th} member excluding the member's evaluation of themselves, and APE_n^* = average peer evaluation score by the n^{th} member by themselves

For example: The first and second group member's score (in a five-person team) would be calculated as follows:

$$IS_1 = TS(0.50 + 0.50(\frac{IPE_{1,2}}{APE_2^*} + \frac{IPE_{1,3}}{APE_3^*} + \frac{IPE_{1,4}}{APE_4^*} + \frac{IPE_{1,5}}{APE_5^*})(\frac{1}{5-1})) \quad (2)$$

$$IS_2 = TS(0.50 + 0.50(\frac{IPE_{2,1}}{APE_1^*} + \frac{IPE_{2,3}}{APE_3^*} + \frac{IPE_{2,4}}{APE_4^*} + \frac{IPE_{2,5}}{APE_5^*})(\frac{1}{5-1})) \quad (3)$$

IPE scores for each team member are awarded by the instructor(s) based on review of the individual's team peer evaluation information.

An individual's presentation score will be determined by his/her performances in presentation(s) and responses to post-presentation questions over the course of the semester.

Course grades will be determined as follows:

Score	>95.5	92.5 to 95.4	89.5 to 92.4	86.5 to 89.4	82.5 to 86.4	79.5 to 82.4	76.5 to 79.4	72.5 to 76.4	69.5 to 72.4	66.5 to 69.4	62.5 to 66.4	59.5 to 62.4	<59.5
Grade	A+	A	A-	B+	B	B-	C+	C	C-	D+	D	D-	F

Note: grades are not "curved" in this course. It is theoretically possible for everyone in the class to get an A (or an F). Your performance depends only on how you do, not on how everyone else in the class does. It is therefore in your best interests to help your classmates, while acting within the bounds of the stated academic integrity policy.

14. Additional Course Information

- Homework will be submitted individually. Homework format is specified as follows (format is the same as in CHE 205). Points will be deducted from any homework submissions which do not follow this format:
 - All homework will be submitted electronically.
 - Write on one side of each page (clear side, not grid side)
 - Begin each problem on a new page
 - Box all final answers

- e. The problems should be submitted in the same order as in the homework assignment
 - f. Scan all your work, combine them as ONE PDF FILE, and submit it to the Moodle (except for HW 5, which has to be submitted to TurnItIn.com).
- Laboratory reports will be submitted electronically by uploading one PDF (preferred format) or MS Word file of the entire laboratory report (e.g. letter of transmittal, report, appendices, laboratory notebook) to the course's TurnItIn.com website by 1:30 PM on the date of submission. Instances of plagiarism will be penalized on a situational basis and may be referred to the Office of Student Conduct.
 - Any delay in report submission will decrease the report grade by 2% (and an additional 2% per each additional hour of delay, up to a maximum of 10% per calendar day). Reports, etc. may be turned in electronically on weekends/holidays to avoid further penalty.
 - Preview and full videos for each experiment in the laboratory are available online via Google Drive at the following link:

https://drive.google.com/drive/folders/1WRe6mO_uGdRpRy16mAltZsQKM6HntKAP

Note, that the above videos have been recorded by previous lab TAs in Fall 2020. Refer to the Table 1 in page 1 of this document to find your current TAs for each experiment this semester.

It is the students' responsibility to view these videos on their own outside of class prior to contributing to their group's pre-lab documents and completing each experiment.

- Teams have the option to submit a revised version of their first laboratory report after receiving instructor feedback. The final score of the first report will be an average of the scores on the initial and revised reports.
- Teams with pre-lab grades lower than 50% or not knowing safety/hazards rules will not be allowed to start experimental work and may receive zero credit for the experiment if the experiment is not completed by the end of the laboratory period.
- Any student or team violating the laboratory safety rules will be removed from the laboratory and will be assigned zero credit for the given experiment.
- Any student who arrives to any laboratory session more than 10 minutes late without written permission from the instructor or a university-approved excuse will be considered absent from the session and will receive zero credit for deliverables associated with the experiment.
- Any student who misses a laboratory session without previous written permission from the course instructor or a university-approved excuse will receive zero credit for deliverables associated with the experiment.
- Homework is due at the beginning of class; late submissions are penalized 10%. Each additional 24 hours of delay after the corresponding deadline will decrease the grade by an additional 10%. Homework submitted more than 48 hours late will not be accepted.
- Students who miss a quiz without prior written permission from the instructor or a university-approved excuse will receive zero credit for the quiz.

- Students who miss all or a portion of their section's scheduled presentation session without prior written permission from the instructor or a university-approved excuse will receive zero credit for the presentation.
- Any student who attempts to "steer" selection of their laboratory team members by providing false or misleading information during the CATME team assignment process will be referred to NCSU's Office of Student Conduct.
- Peer evaluation feedback must be submitted via CATME by the time the online survey closes (typically 3-4 days after reports/presentations are submitted). CATME surveys will not be redistributed for a group under any circumstances.
- The instructor may ask a student group for a "long-form" peer evaluation to clarify CATME scores if (1) one or more team members received a peer evaluation score more than 15% below the group average and (2) little or no written explanation is given in CATME student comments for the low peer evaluation score(s). Student teams can avoid long-form evaluations by explaining peer evaluation scoring in comments through CATME.
- Peer evaluation scores may be adjusted at the discretion of the instructor in circumstances where it appears inappropriate team dynamics have prevented accurate peer evaluations.
- The instructor may assign a grade of zero for a student's report and/or presentation if it is apparent the student did not meaningfully contribute to the group assignment.
- It is prohibited for students in different groups to share graded, ungraded or in-progress course materials (including, but not limited to, reports, notes from Q&A sessions, homework, etc.) in any format. Giving another student(s) any course materials without instructor consent is considered "Aiding and Abetting" cheating as per NCSU's Code of Student Conduct. In other words, if a student in another group is found to have plagiarized your report, used your notes from Q&A sessions, etc., your grades will be eligible to be reduced by the Office of Student Conduct (OSC). If this occurs after you complete CHE 330, your grade is eligible to be retroactively reduced (possibly to an F, which would void your CBE degree if you've already graduated).
- All electronic and hard-copy documents (including but not limited to: copies of lecture notes, homework assignments and solutions, exam assignments and solutions, graded/ungraded reports, handouts provided by the instructor, etc.) made available to students in this course are copyrighted and intended only for students' personal use. It is prohibited to share any content from the class with a third party (e.g. any person not signed up for the course this semester, personal / public / commercial websites, news or advertising media, etc.) without written permission from the course instructor. Students who distribute course materials to third parties without appropriate permission will receive a grade of incomplete (IN) for the course.
- It is prohibited to make audio or video recordings of conversations with the course instructor outside of the scheduled lecture period.
- Students who decide to take this course as "pass/fail" at any point during the semester will not be permitted to participate in the laboratory portion of the course.

- As much as possible graded reports will be returned within two weeks (exclusive of holidays / university closures) after they have been submitted.
- Office hours will not be held on dates when classes are not in session.
- If you believe that an error was made in grading homework, quizzes or exams, write a short justification of your claim and attach it to the original assignment in question. Give the justification (with your contact email address) and assignment directly to Dr. Golpour. The TA or instructor will review your concern and respond to you directly. The “statute of limitations” for submitting such claims is one week after the assignment is returned.
- Grading laboratory reports involves both objective and subjective judgments on the part of the grader. If you believe that an error in objective judgment (AKA an error of fact) was made in grading a report, write a short justification of your claim and email Dr. Kim Dickey or speak with her directly. The instructor will review your concern and respond to you directly. The “statute of limitations” for submitting such claims is one week after the report is returned. Subjective judgments in report grading are not eligible for regrade consideration. The following are examples of objective and subjective judgments by the grader:
 - Examples of objective judgments (eligible for regrade):
 - Points were deducted for a missing laboratory notebook when the notebook was in fact included in the report appendix.
 - Points were deducted for not discussing a specific phenomenon when the discussion was in fact included in the report, but overlooked by the grader.
 - Examples of subjective judgments (ineligible for regrade):
 - Points were deducted for lack of clarity in writing.
 - Points were deducted for lack of effectiveness of a figure or table.
- In the event a student misses one exam for any university-approved excuses, they have the option to take a comprehensive make-up exam in its place at the end of the semester, after the last week of classes. Make-up exams submitted by students who missed an exam for a university-approved event are eligible for full credit. *Note: if you show up to take a test, you must take the grade – you cannot decide mid-way through to walk out and take the makeup exam.*
- Cell phones, laptops, tablet computers, etc. must be turned off and put away during exams and quizzes. If a student plans to take notes in digital format using a tablet computer, these notes must be printed in order to be used during exams.
- All students registered with DSO should make arrangements to take tests at the DSO testing center and the instructor should be notified in advance of any arrangements for testing. Students who are registered with DSO but do not make reservations with the DSO office more than three business days in advance of the test date can still inquire about the possibility of receiving their accommodations, but should plan to test with the rest of the class and without accommodations. DSO space (and faculty availability) is

often minimal ahead of the three-day online scheduling cut-off so students should make all of their reservations as early in the semester as possible.

- Bonus points may be awarded by the instructor(s) for extraordinary achievement of a student or a team.
- There will be no final examination.

15. Additional Required Text for NCSU Syllabi

- **Academic Integrity:** Students are required to comply with the university policy on academic integrity found in the Code of Student Conduct found at <http://policies.ncsu.edu/policy/pol-11-35-01>. It is the instructor's understanding and expectation that the student's signature on any test or assignment means that the student contributed to the assignment in question (if a group assignment) and that they neither gave nor received unauthorized aid. Authorized aid on an individual assignment includes discussing the interpretation of the problem statement, sharing ideas or approaches for solving the problem, and explaining concepts involved in the problem. Any other aid would be unauthorized and a violation of the academic integrity policy. Unauthorized aid additionally includes accessing on-line solutions, whether that be complete or partial on-line copies of textbook problem solutions or paying someone to complete your homework. In addition, *any computer work submitted must be completed on your own personal computer or from your own @ncsu.edu account to avoid confusion about the origin of the file, and no sharing of files in any way is allowed.* All cases of academic misconduct will be submitted to the Office of Student Conduct. Students found guilty of academic misconduct will be subject to, at a minimum, a zero on the assignment in question, up to a zero for that course component (e.g. a zero for the homework portion of the final grade), or a failing grade in the course, depending on the nature of the violation. In addition, if you are found guilty of academic misconduct in the course, you will be on academic integrity probation for the remainder of your years at NCSU and may be required to report your violation on future professional school applications.
- **Students With Disabilities:** Reasonable accommodations will be made for students with verifiable disabilities. In order to take advantage of available accommodations, students must register with the Disability Services Office at Suite 2221, Student Health Center, Campus Box 7509, 919-515-7653. For more information on NC State's policy on working with students with disabilities, please see the **Academic Accommodations for Students with Disabilities Regulation (REG02.20.01)**(<http://policies.ncsu.edu/regulation/reg-02-20-01>)
- **Non-Self-Contained Laboratory:** The standard time associated with a 2-hour non-self-contained laboratory is 3.33 hours. Depending on the pace at which students complete experiments, it is possible completion of some laboratory procedures will take up to 4 hours, but historically most laboratories are completed within 3.33 hours. Students will not report to the laboratory during weeks experiments are not scheduled and are encouraged to use these time periods to work on reports and other deliverables associated with the laboratory.
- **Attendance Regulation:** <http://policies.ncsu.edu/regulation/reg-02-20-03>

- **Equal Opportunity:** NC State University provides equality of opportunity in education and employment for all students and employees. Accordingly, NC State affirms its commitment to maintain a work environment for all employees and an academic environment for all students that is free from all forms of discrimination. Discrimination based on race, color, religion, creed, sex, national origin, age, disability, veteran status, or sexual orientation is a violation of state and federal law and/or NC State University policy and will not be tolerated. Harassment of any person (either in the form of quid pro quo or creation of a hostile environment) based on race, color, religion, creed, sex, national origin, age, disability, veteran status, or sexual orientation also is a violation of state and federal law and/or NC State University policy and will not be tolerated. Retaliation against any person who complains about discrimination is also prohibited. NC State's policies and regulations covering discrimination, harassment, and retaliation may be accessed at <http://policies.ncsu.edu/policy/pol-04-25-05> or http://www.ncsu.edu/equal_op/. Any person who feels that he or she has been the subject of prohibited discrimination, harassment, or retaliation should contact the Office for Equal Opportunity (OEO) at 919-515-3148.
- **NC State Policies, Regulations, and Rules (PRR):** “Students are responsible for reviewing the NC State University PRR’s which pertain to their course rights and responsibilities:
 - Equal Opportunity and Non-Discrimination Policy
Statement <https://policies.ncsu.edu/policy/pol-04-25-05> with additional references at <https://oied.ncsu.edu/equity/policies/>
 - Code of Student Conduct <https://policies.ncsu.edu/policy/pol-11-35-01>
 - Grades and Grade Point Average <https://policies.ncsu.edu/regulation/reg-02-50-03>
 - Credit-Only Courses <https://policies.ncsu.edu/regulation/reg-02-20-15>
 - Audits <https://policies.ncsu.edu/regulation/reg-02-20-04>
- **Classroom Capture:** Please be advised this course may be recorded for current and potential future educational purposes. By your continued participation in this recorded course, you are providing your permission to be recorded.
- **ClassEval:** Course and instructor evaluations: Online class evaluations will be available for students to complete during the last two weeks of class. Students will receive an email message directing them to a website where they can login using their Unity ID and complete evaluations. All evaluations are confidential; instructors will never know how any one student responded to any question, and students will never know the ratings for any particular instructors.
 - Evaluation website: <https://classeval.ncsu.edu>
 - More information: <http://www2.acs.ncsu.edu/UPA/classeval/index.htm>
 - Schedule: Online class evaluations will be available for students to complete during the last 2 weeks of class and become unavailable before finals begin.

16. COVID-19 Policy

Due to the COVID-19 pandemic, public health measures continue to be implemented across campus. Students should stay current with these practices and expectations through the [Protect the Pack](https://www.ncsu.edu/coronavirus/) website (<https://www.ncsu.edu/coronavirus/>). The sections below provide expectations and conduct related to COVID-19 issues.

Health and Participation in Class

We are most concerned about your health and the health of your classmates and instructors/TAs.

- If you test positive for COVID-19, or are told by a healthcare provider that you are presumed positive for the virus, you should not attend any face-to-face (F2F) classes or face-to-face component of a hybrid class. Work with your instructor on any adjustments necessary; also follow other university guidelines, including self reporting ([Coronavirus Self Reporting](#)): Self-reporting is not only to help provide support to you, but also to assist in contact tracing for containing the spread of the virus.
- If you feel unwell, even if you have not been knowingly exposed to COVID-19, please do not come to a F2F class or activity.
- If you are in quarantine, have been notified that you may have been exposed to COVID-19, or have a personal or family situation related to COVID-19 that prevents you from attending this course in person (or synchronously), please connect with your instructor to make alternative plans, as necessary.
- If you need to make a request for an academic consideration related to COVID-19, such as a discussion about possible options for remote learning, please talk with your instructor.

Health and Well-Being Resources

These are difficult times, and academic and personal stress are natural results. Everyone is encouraged to [take care of themselves](#) and their peers. If you need additional support, there are many resources on campus to help you:

- Counseling Center ([NCSU Counseling Center](#))
- Student Health Services ([Health Services | Student](#))
- If the personal behavior of a classmate concerns or worries you, either for the classmate's well-being or yours, we encourage you to report this behavior to the NC State CARES team: ([Share a Concern](#)).
- If you or someone you know are experiencing food, housing or financial insecurity, please see the Pack Essentials Program ([Pack Essentials](#)).

Community Standards related to COVID-19

We are all responsible for protecting ourselves and our community. Please see the [community standards](#) and Rule 04.21.01 regarding Personal Safety Requirements Related to COVID-19 [RUL 04.21.01 – Personal Safety Requirements Related to COVID-19 – Policies, Regulations & Rules](#)

Course Expectations Related to COVID-19:

- **Face Coverings:** All members of the NC State academic community are expected to follow all university policies and guidelines, including the [Personal Safety Rule](#) and [community standards](#), for the use of face coverings.
- **Course Attendance:** NC State attendance policies can be found at: [REG 02.20.03 – Attendance Regulations – Policies, Regulations & Rules](#). Please refer to the course's attendance, absence, and deadline policies for additional details. If you are quarantined or otherwise need to miss class because you have been advised that you may have been

exposed to COVID-19, you should not be penalized regarding attendance or class participation. However, you will be expected to develop a plan to keep up with your coursework during any such absences. If you become ill with COVID-19, you should follow the steps outlined in the health and participation section above.

- **Technology Requirements:** This course may require particular technologies to complete coursework. Be sure to review the syllabus for these expectations, and see the [syllabus technical requirements](#) for your course. If you need access to additional technological support, please contact the Libraries' Technology Lending Service: ([Technology Lending](#)).

Course Delivery Changes Related to COVID-19

Please be aware that the situation regarding COVID-19 is frequently changing, and the delivery mode of this course could change accordingly, including from in-person to remote. Regardless of the delivery method, we will strive to provide a high-quality learning experience.

NO LONGER AVAILABLE - Grading/Scheduling Changing Options Related to COVID-19

Two policies, enhanced S/U Grading Option and Late Drop, put in place at the beginning of the COVID-19 pandemic have been discontinued.

In some cases, an option may be to request an "incomplete" in the course. If you are experiencing difficult or extenuating circumstances, you should discuss possible options with your instructor and your academic advisor.

Need Help?

If you find yourself in a place where you need help, academically or otherwise, please review these [Step-by-Step Help Topics](#). In addition, the following College of Engineering individuals are very available to assist students with any matter, please reach out to them:

-Dr. Laura Bottomley, Women and Minority Engineering Program,

laurab@ncsu.edu

-Ms. Angelitha Daniel, Women and Minority Engineering Program,

aldaniel@ncsu.edu

-Dr. David Parish, COE Assistant Dean, dwparish@ncsu.edu

-Dr. Jerome Lavelle, COE Associate Dean, jplavell@ncsu.edu

Other Important Resources

- **Keep Learning:** [Keep Learning](#)
- **Protect the Pack FAQs:** [Frequently Asked Questions | Protect the Pack](#)
- **NC State Protect the Pack Resources for Students:** [Resources for Students | Protect the Pack](#)
- **Academic Success Center** (tutoring, drop in advising, career and wellness advising): [Academic Success Center](#).
- **NC State Keep Learning, tips for students opting to take courses remotely:** [Keep Learning Tips for Remote Learning](#)
- **Introduction to Zoom for students:** <https://youtu.be/5LbPzzPbYEW>
- **Learning with Moodle, a student's guide to using Moodle:** <https://moodle-projects.wolfware.ncsu.edu/course/view.php?id=226>
- **NC State Libraries** [Technology Lending Program](#)

Some other thoughts to consider for your syllabus or course website:

- Note the [syllabus regulation](#) has information about digitally-hosted components, which includes the use of zoom and also classroom recordings. Please also refer to the ‘student privacy’ section of the Keep Teaching FAQ: <https://provost.ncsu.edu/faculty-resources/keep-teaching/faqs/>.
- For remote exams: be very clear about what is allowed and not allowed. See, for example, the ST 311 situation where many students used Chegg. http://www.technicianonline.com/news/article_308a42f6-caf0-11ea-bc0e-2332ae88e82a.html
- If you plan to use exam proctoring: “This course may require proctored/ monitored exams. A request for in-person exam proctoring on campus has been submitted to [DELTA Testing Services](#). This information will be updated with further instructions once the availability of in-person exam proctoring on campus has been confirmed. This update may take place after the start of the semester.”
- If gloves are recommended for use (such as in a computer lab): how to properly remove your gloves: https://www.youtube.com/watch?v=xTYioOo_6U
- Hand hygiene: Wash your hands frequently with soap and water for at least 20 seconds.
 - Follow proper hand-washing techniques, here is one example: <https://www.youtube.com/watch?v=bQCP7waTRWU>
 - If soap and water are not immediately available, use an alcohol-based hand-sanitizer containing $\geq 60\%$ alcohol.
