

Final Portfolio Assignment

The final portfolio assignment is worth about 30% of your final grade, and it **CANNOT be turned in late. This assignment is due at 11:59 PM on April 25, 2025.**

Your final portfolio MUST include at least **at least 20 total pages** (double-spaced, 12 pt Times New Roman font).

You may submit any page combination of fiction writing. For example, you may choose to submit 20, 1-page flash fiction pieces. Or, perhaps, a 15-page short story and a 5-page flash piece. Etc. Etc.

You may choose to submit revisions from workshop. **If you are submitting a revision, it should be a substantive revision**—meaning, you are not to copy & paste something you submitted to workshop this semester without incorporating the feedback from your colleagues. You may also choose to submit something that has never seen the light of day before, something that no one before me (your instructor) has read.

Most importantly, please submit your best work, work that you are proud of. The parameters of this assignment are broad so that you can experiment and create freely. Remember: What I think about your writing (content, style, etc.) will not impact your final grade. Just get to 20 pages.

****Images do not count towards page count but can be included if it supplements your writing. Please email me if you are thinking about including other multimedia elements that may be equivalent in time to writing 20 pages but may affect your page count (think multi-media, etc).*
