

CHE316-003 Spring 2024
Homework Set 0

1. Write a brief autobiography. Consider including the reasons you chose chemical engineering, your career goals, and your interests. Also, if there is anything you would like the CHE316 team to know about you and your learning preferences/needs, this is a great place to share that.
2. Print (or copy) and sign the following agreement.

Sharing of course materials and general course integrity:

- I acknowledge that all course materials¹ made available to me for the course CHE316 taught at NC State University in the Spring 2024 semester are for my **personal use only**. By signing this document, I certify that I will not share any course content with a third party² without written permission from the course instructor.
- I acknowledge that by submitting a document to Gradescope under my name and account, I am indicating that all work is my own. Any group effort will be indicated as such.

Signature

Date

¹ Both electronic and hard-copy, including (but not limited to) copies of lecture notes, videos, homework assignments and solutions, exam assignments and solutions, and any handouts provided by the instructor.

² Any person not enrolled in this course this semester; a personal, public, or commercial website; or any other news, advertising, or social media.
